

Safer Medicines Campaign
PO Box 122, Kingsbridge TQ7 9AX Tel: 030 0302 0521 info@SaferMedicines.org
www.SaferMedicines.org

Our medicines are killing us! Adverse drug reactions have reached epidemic proportions, sending a million Britons to hospital and killing more than 10,000 every year. Yet new technologies *are* available to predict adverse reactions that current methods (chiefly animal tests) cannot predict.

We the undersigned call on the Government to mandate the use of new technologies that can predict the safety of medicines for patients more reliably than current methods.
